AN INVITATION TO SCIENTISTS AND RESEARCHERS

David Baxter
European Commission, JRC
Technical Programme Chairman

"On behalf of the scientific committee and the new industry committee, it is great pleasure to invite you to be part of the 22nd European Biomass Conference and Exhibition (EU BC&E).

As you will probably know, the conference series started more than 30 years ago. You will also probably know that the conference has a great scientific tradition which now extends from biomass itself, to conversion processes for biofuels, bioenergy and biorefineries and to industrial applications and impacts on the environment." [Read more...](#)

AN INVITATION FOR MEMBERS OF INDUSTRY

Kyriakos Maniatis
European Commission, DG ENER
Industry Committee Coordinator

"Only the biomass & bioenergy industry can bridge the gap by undertaking reliable and well reasoned investments with social responsibility and political accountability[...]. It's perhaps the first time that the biomass and bioenergy industry has wrought such a pivotal role in such a complex debate but also the only stakeholder that can steer the way out of the muddle. With this, I invite the biomass and bioenergy industry to participate in the debate during the 2014 EU BC&E by showing how the above issues can be dealt with, dependably and consistently." [Read more...](#)

What you could expect from participating:

- Opportunity to have your paper **Peer Reviewed** and eventually published in the [Biomass and Bioenergy journal by Elsevier](#)
- Have your work evaluated by a **scientific committee** composed of renowned members of the science and research fields of biomass
- **Exchange and learn** about developments, share results and get inspired by new ideas
- Find future business partners to **valorize your research**

What you could expect from participating:

- **Newly appointed industry committee** to review industry abstracts and organize industry-specific events
- Attain **increased visibility** in the industry
- **Contribute** to the development of the biomass industry
- Perform **networking** on a global scale
- **Reinforce your organization** with scientific findings
